THE ROCKETFELLERS

THE ROCKETFELLERS

PREVIOUSLY...

On the run from authorities in the 25th century, The Rocketfeller family hides in the year 2025. As they adjust to their seemingly ancient surroundings, they try to maintain as much normalcy—like putting up a Christmas tree—as possible. But the hunters of the 25th century are getting closer...

RACHEL ROCKETFELLER

BIRTH NAME: Rachel Whitson

AGE: 38 **HEIGHT:** 5' 7"

WEIGHT: 148 lbs

EYES: Green **HAIR:** Red

FIRST APPEARANCE: GHOST MACHINE #1 (2024)

HISTORY: In her native 25th century, Rachel Rocketfeller is even more of a rock star than her super-scientist husband, Roland. Known throughout the world as an astronaut, she also holds a doctorate in astronomy, specializing in star charts. The only thing that stopped her from traveling among the stars was when she learned she was pregnant with her first child, Richie.

A born explorer, Rachel fearlessly seeks the next great adventure. And she found the ultimate undertaking—albeit not the one she expected. Recently, Roland discovered a secret that places the fate of humanity in his hands. When the corporate conglomerate Cronex learned of this, a manhunt ensued. The only escape for Rachel and her family was by entering the Time Zone Protection Program, facilitated by Roland's brother Reggie, where they traveled through time to the distant past of the 21st century.

Here in the 21st century, Rachel finds herself earthbound, grounded and watchful as she keeps her eyes not on the stars above, but on the neighborhood street where she and her family live. Knowing Cronex has put a target on her back, she will fiercely defend her family when it's in jeopardy.

She enjoys swimming in the local lake because floating weightlessly is the closest thing she can get to feeling like she's space walking.

To further acclimate to her new surroundings, Rachel flies a helicopter for a local TV station's meteorologist Harry Dylan. She doesn't tolerate Harry's flagrant misogyny, and takes every opportunity to rebuff his guff.

ABILITIES: Rachel possesses uncanny intelligence, a necessary trait to be both an astronaut and astronomer. Rachel was not only first in her class, but first in all previous classes since the days of NASA beginning in the 20th century. Her best skill is thinking on her feet, able to pivot strategy and improvise with the best tacticians to ever live. It has served her and her family well throughout their time in the 21st century. ●

GEIGER #10

THE RETURN OF JUNKYARD JOE! As Tariq Geiger's quest to find a cure to his radioactive condition continues, he finds himself once again face-to-face with the U.S. Army's most dangerous weapon. But with his powers growing out of control, who will come to his rescue? You won't believe it.

HORNSBY & HALO #3

An unnatural blizzard hits the town of Warwick, as rogue agents of Heaven and Hell plot to disrupt the tenuous peace between realms, using Rose Hornsby and Zach Halo as pawns. The storm also raises the dead from their graves to reclaim their personal valuables stolen by the Halo family before being buried...

HYDE STREET #3

Picture a holiday season filled not with joy or cheer, but with pain and retribution. Enter a man known as Mr. X-Ray, seeking escape from the inescapable. Standing in his way: Pranky, a young scout who only lives to serve the dark power behind Hyde Street. Can the spirit of Christmas bring them together?

REDCOAT #9

Everyone has a drinking buddy, but there's none more magical than Johnny Appleseed! An American legend, Johnny lived an adventurous life, particularly when he crossed paths with our immortal British redcoat Simon Pure, who shared his pursuit of a good time with good drink. What secrets does Simon reveal in his inebriated state? Plenty.

THE ROCKETFELLERS #3

Where are The Rocketfellers? Hiding out in the 21st Century, that's where, as a relentless bounty hunter from the 25th century continues to track down our time-traveling renegade family by any means necessary! But just as the family starts to feel comfortable in their new surroundings, they attract attention from an unexpected threat closer to home...

HYDE STREET #4

Witness, if you will, the demise of a good man in a town without pity. A caring man, with aspirations to be known among his peers as one of Hollywood's finest actors, only to see these colleagues snicker at him when he's typecast as a famous film monster made of human patchwork parts. But, as we'll see, life imitates art in the worst way on Hyde Street.
